**Rerouting Galician Studies** Benita Sampedro Vizcaya,José A. Losada Montero,2017-11-14 This book—aimed at both the general reader and the specialist—offers a transatlantic, transnational, and multidisciplinary cartography of the rapidly expanding intellectual field of Galician Studies. In the twenty-one essays that comprise the volume, leading scholars based in the United States, Canada, the United Kingdom, and New Zealand engage with this field from the perspectives of queer theory, Atlantic and diasporic thought, political ecology, hydropoetics, theories of space, trauma and memory studies, exile, national/postnational approaches, linguistic ideologies, ethnographic poetry and photography, Galician language in the US academic curriculum, the politics of children's books, film and visual studies, the interrelation of painting and literature, and material culture. Structured around five organizational categories (Frames, Routes, Readings, Teachings, and Visualities), and adopting a pluricentric view of Galicia as an analytical subject of study, the book brings cutting-edge debates in Galician Studies to a broad international readership.

**The New Work of Dogs** Jon Katz,2004-06-08 In an increasingly fragmented and disconnected society, dogs are often treated not as pets, but as family members and human surrogates. *The New Work of Dogs* profiles a dozen such relationships in a New Jersey town, like the story of Harry, a Welsh corgi who provides sustaining emotional strength for a woman battling terminal breast cancer; Cherokee, companion of a man who has few friends and doesn't know how to talk to his family; the Divorced Dogs Club, whose funny, acerbic, and sometimes angry women turn to their dogs to help them rebuild their lives; and Betty Jean, the frantic founder of a tiny rescue group that has saved five hundred dogs from abuse or abandonment in recent years. Drawn from hundreds of interviews and conversations with dog lovers and canine professionals, *The New Work of Dogs* combines compelling personal narratives with a penetrating look at human/animal attachment, and it presents a vivid portrait of a community—and, by extension, an entire nation—that is turning to its pets for emotional support and stability in a changing and uncertain world.

*Witnessing Without Fear* Bill Bright, 2003

**Latino Social Policy** Juana M. Mora, David R. Diaz, 2004 Examines the failure of traditional research methods to address major social needs in Latino communities, promoting instead a participatory/action approach to research that is socially - and scientifically - meaningful.

*The Lathe Of Heaven* Ursula K. Le Guin, 2022-07-19 With a new introduction by Kelly Link, the Locus Award-winning science fiction novel by legendary author Ursula K. Le Guin, set in a world where one man's dreams rewrite the future. During a time racked by war and environmental catastrophe, George Orr discovers his dreams alter reality. George is compelled to receive treatment from Dr. William Haber, an ambitious sleep psychiatrist who quickly grasps the immense power George holds. After becoming adept at manipulating George's dreams to reshape the world, Haber seeks the same power for himself. George—with some surprising help—must resist Haber's attempts, which threaten to destroy reality itself. A classic of the science fiction genre, *The Lathe of Heaven* is prescient in its exploration of the moral risks when overwhelming power is coupled with techno-utopianism.

*Slavery and the University* Leslie M. Harris, James T. Campbell, Alfred L. Brophy, 2019-02-01 Slavery and the University is the first edited collection of scholarly essays devoted solely to the histories and legacies of this subject on North American campuses and in their Atlantic contexts. Gathering together contributions from scholars, activists, and administrators, the volume combines two broad bodies of work: (1) historically based interdisciplinary research on the presence of slavery at higher education institutions in terms of the development of proslavery and antislavery thought and the use of slave labor; and (2) analysis on the ways in which the legacies of slavery in institutions of higher education continued in the post-Civil War era to the present day. The collection features broadly themed essays on issues of religion, economy, and the regional slave trade of the Caribbean. It also includes case studies of slavery's influence on specific institutions, such as Princeton University, Harvard University, Oberlin College, Emory University, and the University of Alabama. Though the roots of Slavery and the University stem from a 2011 conference at Emory University, the collection extends outward to incorporate recent findings. As such, it offers a roadmap to one of the most exciting developments in the field of U.S. slavery studies and to ways of thinking about racial diversity in the history and current practices of higher education.

Existence David Hinton, 2016-08-09 This is the story of existence, and it begins with a painting. Join David Hinton, the premier modern translator of the Chinese classics, as he stands before a single landscape painting, discovering in it the wondrous story of existence—and as part of that story, the magical nature of consciousness. What he coaxes from the image is nothing less than a revelation: the dynamic interweaving of mind and Cosmos, and the glorious dance of Absence and Presence that is the secret of that Cosmos.

**A DAUGHTER'S DILEMMA** Miranda Lee, Rie Nakamura, 2017-08-27 □A story by USA Today bestselling author becomes

a comic![]After years of illness and suffering, Carolyn's mother is going to be remarried...and her husband is secretly having a gorgeous mansion built for her as a present! He asks Carolyn to make sure the interior design goes off without a hitch before the honeymoon is over, but when she hears the name of the architect in charge of the project, her breath catches. It's Bahn Slater, a well-known architect...and the man who broke her mother's heart ten years ago! He was to blame for Carolyn's mother's nervous breakdown in the first place. Carolyn can't let her mother see him, no matter what. There's just one problem... As soon as she lays eyes on Bahn, Carolyn finds herself falling for him!

A Date with Destiny Miranda Lee,2012-07-16 A Neighborly Affair? Salome was still reeling from the heartbreak and anger of the sudden ending of her marriage. She hadn't accepted anything from her former husband except an apartment that had become her only refuge. Until neighbor Mike Angellini—if you could call an enemy a neighbor—threatened to invade her peace. The man meant trouble! He'd only asked her out to dinner, but the wealthy Sydney restaurateur had always had an aggravating effect on Salome. She couldn't stand his attitude—he still assumed she was a gold digger. And now he made her wonder if she'd ever really been in love....

**If You Don't Let Us Dream, We Won't Let You Sleep** Anders Lustgarten,2013-05-09 I believe that open markets and free enterprise are the best imaginable force for improving human wealth and happiness. And I would go further: where they work properly, they can actually promote morality. David Cameron, January 2012 Anders Lustgarten's play is an exploration of our current government's politics of austerity and a look at possible alternatives. If You Don't Let Us Dream, We Won't Let You Sleep was supported by the Harold Pinter Playwright's Award which is given annually by Pinter's widow Lady Antonia Fraser.

**Forced Into Glory** Lerone Bennett,2007 Beginning with the argument that the Emancipation Proclamation did not actually free African American slaves, this dissenting view of Lincoln's greatness surveys the president's policies, speeches, and private utterances and concludes that he had little real interest in abolition. Pointing to Lincoln's support for the fugitive slave laws, his friendship with slave-owning senator Henry Clay, and conversations in which he entertained the idea of deporting slaves in order to create an all-white nation, the book, concludes that the president was a racist at heart--and that the tragedies of Reconstruction and the Jim Crow era were the legacy of his shallow moral vision.

Mr. Lincoln Goes to War William Marvel,2006-05-10 An account of how America's greatest crisis began, by "the Civil War's master historical detective" (Stephen W. Sears, author of Chancellorsville). This groundbreaking book investigates the mystery of how the Civil War began, reconsidering the big question: Was it inevitable? The award-winning author of Andersonville and Lincoln's Autocrat vividly recreates President Abraham Lincoln's first year in office, from his inauguration through the rising crisis of secession and the first several months of the war. Drawing on original sources and examining previously overlooked factors, he leads the reader inexorably to the conclusion that Lincoln not only missed opportunities to

avoid war but actually fanned the flames—and often acted unconstitutionally in prosecuting the war once it had begun. With a keen eye for the telling detail, on the battlefield as well as in the White House, this is revisionist history at its best, not sparing anyone, even Abraham Lincoln. “A brilliant narrative that reveals the possibilities of the past that were squandered by historical figures who seem so unassailable and godlike to us today.” —Peter S. Carmichael, author of *The Last Generation* “The most provocative account of events in 1861 in a generation. Readers who think they understand the Civil War’s first year and the roles played by Abraham Lincoln, Nathaniel Lyon, Charles Stone, and a host of others should brace themselves for a bold new perspective.” —A. Wilson Greene, author of *Breaking the Backbone of the Rebellion*

**Hunters and Trackers of the Australian Desert** Pat Lowe, 2002 The peoples of the deserts in the centre of Australia adapted to one of the most marginal environments on earth, with no technology to assist them other than what they could make with their own hands. The book describes the hunting lifestyle of desert people both before European contact and today. It discusses the art of tracking in some detail, and shows it is part of a body of knowledge, which includes an intimate understanding of animal behaviour, an excellent memory and a faultless sense of direction.

**Working Wilderness** Nathan Freeman Sayre, 2005 Which is worse, cows or condos? Can the public lands be saved if the private lands are paved? What does the future hold for the West's vaunted open lands, its ever more precious water, and its fire-prone forests? Is ranching a doomed myth as its critics charge or the key to real conservation? The Western range is America's most legendary landscape. It is also among its most threatened and most fiercely contested. More than 400 million acres of the West are used to raise livestock: half of the land privately owned and half of it public. In recent decades, the private lands have been rapidly converting to residential development, both around booming cities and in remote, scenic, exurban areas. The public half of the range has become mired in political battles and lawsuits between environmentalists, ranchers, and public agencies. In *Working Wilderness* Nathan Sayre examines an unusual alliance that has worked for ten years to answer these questions and preserve the wide open range: The Malpai Borderlands Group. 50 color & b/w photos.

**Winning Mars** Jason Stoddard, 2011 Jere Gutierrez is bucking the trend at the dying art of linear entertainment -- what

we know today as TV shows. His combination of astounding stories, captured in the moment, are captivating millions. Of course, every one of his stories are fabricated and engineered and orchestrated, even though they're sold as real. Unfortunately for Jere, his backers have begun to see through his tricks. Desperate for another story, one large enough to capture the attention of the world, he teams up with a retired TV executive to create an ad-supported mission to Mars, complete with corporate sponsors and extreme sports events. What Jere doesn't know is just how captivating his Winning Mars will be.

**The Legend of the Founding Fathers** Wesley Frank Craven, 1983-04-25 Six lectures which explore the popular views that successive generations of Americans, from the eighteenth to the twentieth century, have held in regard to the motives and guiding principles of the founders of the thirteen colonies and the leaders of the American Revolution.

**Virginia's Eastern Shore** Ralph T. Whitelaw, 1968 The result of the research is a story of the land and its owners, rather than the usual chronological history of its economic and social development, but the latter is inevitably brought out in any account of the people whose lives influenced this development. -- Pref.
